

Bollard Covers

The durable plastic Bollard Covers are designed to protect steel bollards from weathering and erosion. They are extremely easy to fit, you just slide over the bollard and they will fit securely with a self-adhesive foam strip. No maintenance, no repainting and no rust. Available in yellow & black stripe, green, red and blue.

- Bollard sleeves manufactured from low density polyethylene
- Perfect for use around warehouses, car parks, or premises that use bollards
- No maintenance or painting required
- Protect bollards from rust
- Easy to fit – just slide over existing steel bollard
- Secure fit with self-adhesive foam strip
- Sleeve is 1220mm high but can be cut to fit smaller bollards
