

Specification Sheet

Brown Wheelie Bin-1100 Litre

Dimensions

Capacity:

1100L

Dimensions:

W137.5 x H133 x D108.5cm

Material:

Polyethylene

Other

Production:

Using a compact injection moulding process that adheres to DIN EN 840 and RAL GC 951/1.

Formed using HDPE with a high molecular density that makes this a durable, hard-wearing bin

Durability:

Resistant to UV, frost, heat and chemicals. Metal parts are resistant to corrosion due to zinc plating

Compatibility:

Designed to fit both DIN and comb-lift devices

Stability:

Reinforced steel lifting trunnions provide extra stability and durability for lifting

Casters:

4x 20cm quiet running, solid rubber casters swivel through 360° for optimal handling and manoeuvrability

Brakes:

2x foot brake fitted as standard

Handles:

Well positioned handles facilitate convenient handling from all sides of the container

Drain:

2" water drain with bung comes as standard

Front Panel:

Large front panel is suitable for customised printing

Requirements:

Meets requirements of directive 2000/14/EC and displays CE mark as well as appropriate noise level

Lid:

Flat lid prevents water ingress and can be easily changed if required

Colours:

Also available in Black, Blue, Brown, Lime Green, Moss Green, Orange, Purple, Red, Steel Grey, White, Wine Red and Yellow
