

# Eco Litter Bin 160L

Eco Litter Bin has been purpose designed using efficient and economical manufacturing techniques to enable cost savings that can be passed directly to our customers. This new design includes one seamless fold-down aperture and the same signature cut-corner feature of our standard MLB range.

## **What is the bin made from?**

This 'eco' bin is manufactured from durable, British bought galvanised steel, which is expertly primed, cured and powder coated to offer a superior durability and excellent corrosion resistance. A 5mm heavy duty steel base provides a sturdy bottom to the bin, which comes pre-drilled for ground fixing. The bin can be securely fixed using raw bolts or alternatively can be secured with a ground anchor in freshly laid concrete.

Eco litter bins come with a standard 10-year anti-perforation warranty and a 1- year parts and labour guarantee. The bin has smooth sides and collects 160 litres of waste in a premium quality galvanised steel liner.
